Hidalgo County records its first pediatric death; another 531 test positive for the virus

EDINBURG – Twenty deaths, including the county's first pediatric death, due to complications from COVID-19 were reported Friday, as well as 531 new positive cases, bringing the total number of positive cases to 21,806.

Due to state and federal privacy laws Hidalgo County Health Officials will not be releasing the child's age or other personal or health information.

"The death of this child reaffirms that children -- and no age group -- are not immune from the devastating impact of this deadly virus," Judge Cortez said. "It is imperative, for us to all work together to prevent further spread of this disease. This death hits home the reality that COVID-19 does not spare even the youngest members of our community."

There are currently 530 people hospitalized with complications from the virus; 223 of those cases are being treated in intensive care units. There are currently 5,003 net active cases and 313 people were released from isolation on Wednesday, meaning that they have been symptom-free for 10 days, including three days without a fever.
