To Whom it may concern

May 9, 2024

Skyline EMS was an unknowing participant and was in no way aware of what Mr. Cantu's intentions or scheme or his daily business practice for his business. He approached Skyline EMS as a home health provider seeking medical transport for his clients, that he needed transported from his facility in Penitas to His new facility in Alice. Mr. Cantu provide standard business information required to secure a transport agreement and signed a contract which included a private pay transport amount that was billed directly to Mr. Cantus business and not to any insurance providers. To Skyline EMS everything looked correct as we have similar agreements and or contracts with other home health and assisted living facilities and routinely transport their patients. As part of the agreement, Mr. Cantu provided the standard face sheet with patient demographics and patient past medical history. Every facility that we do business with supplies us with similar information about their patients that we would be transporting. We were not aware of the immigration status of any of his patients. We do not condone or encourage any of this type of behavior in our business practice. We have had multiple conversions after this incident with Border Patrol in which they have stated that it is not the job of any ambulance service to obtain or determine the immigration status of any patient. At the time of the incident Skyline EMS fully cooperated with Border Patrol.

A handwritten signature in black ink, appearing to read "Johnny Cordero", is written over a large, stylized, looped flourish.
